Your Monthly Message

By Chelsea Yepello

Aries March 21 - April 19

You will soon acquire a better job, allowing you the luxury to buy a higher quality can of refried beans which you eat directly out of the can while laying half naked on your couch as you watch your "stories."

Taurus April 20 - May 20

Your faith in online dating will quickly diminish when you are matched with an individual that has charming qualities, a love for the outdoors and would be happy to meet you, just as soon as they are released from the State of Alabama correctional facility.

Gemini May 20 - June 20

Your checklist for the next week will consist of a helmet, a pile of sponges and a pound and a half of horse meat. Somehow, the helmet will be the hardest thing for you to acquire.

Cancer June 21 - July 22

Don't worry, the universe has a purpose for everyone. But just to save you some time, your purpose is to be that individual that holds the stop/slow sign during road construction, winking at the cars that pass you by.

Leo July 23 - August 23

You will decide that you are tired of dealing with shady people and flaky friends, thus, you will take a proactive step and begin a new career in taxidermy.

Virgo August 23 - September 22

Though its healthy to "experiment" sexually, at some point the pre-teen "self discovery" period of your life has to end. Happy Birthday!

Libra September 23 - October 23

This week you will find true happiness and an enormous amount of joy. Unfortunately, this will become bland after a short amount of time and you'll cut the brakes to your car to shake it up a bit.

Scorpio October 24 - November 21

Though it was a mutual decision, it wasn't easy for them to watch you make that choice. It had been hanging there, tempting you for so long, now you have to decide if you made the decision out of convenience or confidence.

Sagittarius November 22 - December 21

As you sink further into salinity and paranoia, you will be convinced that the man in the tree staring at you with binoculars is in fact, watching you, despite has assurance that he is just birdwatching.

Capricorn December 22 - January 19

Well, you survived. At least this round. You may be a little beaten up, coved with an unidentified goo and half drunk, but at least you know that you gave it your best and have the energy to see what happens tomorrow. Maybe its not a bad idea to purchase some brass knuckles for this next round. It might bee a doozy.

Aquarius January 20 - February 18

You'll feel that you reached a new low when you catch yourself being one of those people that make witty little quips to complete strangers, resulting in them being forced to chuckle uncomfortably at you silly useless comments just to be polite.

Pisces February 19 - March 20

Pisces- Somehow, you always thought at at some age your clothes would become more sophisticated, but in reality, Batman underroos never go out of style.

Powder Haze: A Day In The Life At A Ski Town

Written by Todd Danielson and Ski Town Productions

Come and enjoy another live multimedia musical performance from Steamboat's favorite source of local satire, Pirate Theatre. This special event is a "send-off" performance of the new show the group will be taking to the International Fringe Festival in Boulder the following week. Your beloved fictional ski bums, such as Snowman, Rocky, Bro and Dude, will share their hilarious exploits onstage, as they highlight the pros (Powder Days, good times, low expectations) and cons (few women, tourists, low expectations) of living in a mountain town. The group also will be entering uncharted waters, as it sets its satirical sights on a new location for the first time, The Republic of Boulder. Don't miss this special opportunity to see the gang make fun of your favorite local topics and more, and wish them luck on their voyage to new and dangerous lands.
