

## Rants...

Not writing even one chapter in NaNoWriMo...

No jelly...

Whinny losers...

Gloating winners...

Seeing truth and looking the other way...

Realizing you used to do the thing you're getting mad at someone else for doing...

Biking on Thanksgiving day...

## Raves...

Smart questions...

Friends who hook you up even when they're feeling down, too...

Leftovers...

Ending up with more food in the fridge than when you started...

Two days off in a row...

Biking on Thanksgiving day...

## Say What?...

Here I am, 50 years old, with plates in my head, partying without wearing a helmet.

What's in the Mystery Shot?

You can't be walking around without a backpack for that ass...

I'd name my Techno band "No More Phonecalls!"

Smart phones, smart cars, smart televisions... when are they going to start making smart people?!?
